Commerce and Content: Salesforce Commerce Cloud, SFRA, PWA Kit, SiteGenesis, Shopify, Payload CMS, Contentstack, AEM
APIs and Platforms: SCAP, OCAPI, MongoDB, Supabase, Firebase, MuleSoft, NetSuite, SendGrid, Apple Pay
Delivery and Quality: Git, CI/CD, Postman, Datadog, Tealium, SEO, Mocha, Chai, Agile delivery

PROFESSIONAL EXPERIENCE

Elyon Technology | Lead Developer, REN Athletics Jan 2026 - Present

- Led the design and implementation of a React Native warehouse operations app supporting inventory receiving, pallet storage, transfers, and continuous barcode scanning.
- Designed scanner-first workflows and reusable route-backed list, filter, pagination, and toolbar patterns for speed and consistency.
- Led frontend architecture for jersey design-template software with multistep style wizards, SVG and PDF previews, order review, roster validation, and asynchronous print validation.

Chize LLC | Founder and Principal Developer Jan 2025 - Jan 2026

Selected work included Concrete Collaborative, Groove Motive Records, and independent product engagements.

- Built four production Flutter applications using Supabase and Firebase.
- Designed and built a nonprofit platform using Next.js, MongoDB, and Payload CMS.
- Led the design and frontend development of an immersive 3D music experience using React, Three.js, and GSAP.
- Delivered a custom Shopify storefront, product-launch campaigns, and a company website built with Vite.

Cappgemini America | Senior Full Stack Developer Aug 2021 - Jan 2025

Clients included ASICS, Disney, PGA TOUR Superstore, Titleist, Sally Beauty, Colony Brands, and Hibbett.

- Built dynamic Next.js forms integrated with Contentstack and Material UI, establishing reusable component and validation patterns.
- Led a React appointment-booking application integrated with Salesforce B2C Commerce and the uSchedule API.
- Built headless storefront features with PWA Kit and SCAP for product discovery, search, baskets, customer accounts, and checkout.
- Directed a React golf-club customization tool that connected personalized products to Salesforce B2C Commerce carts.
- Led the Apple Pay integration for SFRA checkout and validated payment requests and responses with Postman.
- Developed SFRA ISML templates, controllers, cartridges, and reusable components across PDP, PLP, account, wishlist, and checkout experiences.
- Configured Business Manager catalogs, content assets, promotions, search, metadata rules, and site preferences across multi-brand storefronts.
- Built a Node.js application using OCAPI to retrieve WAF logs and analyze site data, and implemented Tealium and SEO improvements for key storefront features.
- Served as frontend lead for multiple brand style guides, establishing shared UI standards and implementation patterns.

Deckers Outdoor | Lead Software Engineer Sep 2020 - Aug 2021

- Developed SFRA features across the Deckers brand portfolio, including TerraCycle, StoreConnect pickup, and back-in-stock notifications.
- Led the North America pre-checkout team across in-house and contract engineers.
- Refined technical requirements and acceptance criteria so implementation work was clear and achievable.

New Elevation | Lead Developer, Contract Jun 2020 - Sep 2020

- Architected SiteGenesis features for Serena and Lily using ISML templates, forms, controllers, pipelines, scheduled jobs, and reusable UI components.
- Integrated Salesforce Commerce Cloud with NetSuite through MuleSoft and extended email services with SendGrid.
- Helped define technical requirements and scope for an SFRA migration.

The Red Van Workshop | Commerce Cloud Developer

Aug 2019 - May 2020

- Contributed to the ASICS migration from SAP Hybris to SiteGenesis and developed SFRA components for additional commerce clients.
- Helped develop and certify a ChangeUp for Charity cartridge and implemented it in the PopSockets storefront.
- Developed and customized SFRA components for the Dynamic Catholic Institute storefront.

prAna Living | Web Developer II

Nov 2016 - Aug 2019

- Contributed to the Columbia Sportswear multi-brand migration to SFRA, including prAna, Sorel, and Mountain Hardwear.
- Built shopping tools including Mix and Match, Locally, and a third-party retail inventory integration.
- Developed microsite experiences including fit guides and interactive editorial content.
- Created publishing tools with PHP and AEM to streamline landing-page updates.
- Partnered with UX, merchandising, and site teams on Optimizely experiments.

ADDITIONAL EXPERIENCE

Shopify Developer | Freelance

May 2020

- Built a custom Shopify theme for Sackcloth & Ashes.

Metajive | Frontend Developer

Jan 2016 - Jun 2016

- Contributed to a Shopify and WordPress commerce site for Green Flash Brewing Co.
- Provided ongoing maintenance and development for the Alpine Beer Company website.

Freelance Web Developer | Independent

2015 - 2016

- Developed an interactive portfolio recognized with a HOW International Design Award.
- Created a website for a San Diego drone-defense startup.
